HON, OLABENGE DARROW in his speach in Decatur said: "No man can accumulate a million dollars without taking it from the nockets of the musees." And yet Mr Darrow and his party are running for governor Mr. Aitgeld, who is worth several million and accumulated every cent of it within a few years. Here i Democratic consistency for you.

In the attempt at fusion in Colorado the Democratic leaders have met with a serious difficulty. In that state the Democratic electors were withdrawn with the view of planing the Weaver electors will not allow their names to be placed upon the Democratic ticket.

THE Democrate favor a return to wildcat money. It should be remembered that inillions of dollars were lost to the people by that system of currency. It ers and laboring people that the bankers did not lose anything on wildcat money. It was the other people who lost. The eanker was in a position to keep posted as to the value of the wildcat notes.

Other people were not. Tun registration in many of the pre cinots in this city discloses the fact that there are not enough booths to supply one for each 100 voters. The law provides that "the number of booths shall not be less than one for every 100 voters who voted at the last preceding election in the district." This is mandatory and sufficient booths must be secured before elontion day. The people must be given every opportunity to vote.

I say to all you Democrats, in the lan-guage of the immortal Nelson, that En-gland expects every Democrat to do his duty on election day by easting his vote for Grover Cleveland.

This is "beautiful language," comicg from the lips of an American citizen, in which Americans are expected to vote from patriotic motives. Thousands of Democrate will not take Mr. Cerson's advice, but on the contrary will vote for Burrison and Reid and in the interest of cur own industries and laboring men instead of England. When it comes to advising American voters to vote in the interest of England, as Mr. Carson has one, it verges very close upon treason.

CHAUNOUY M. which might be claimed by anyone who had an immensely high opinion of himself. Mr. Cleveland is a courageous man. He is the Cleveland who had the courage to send the famous message Congress which later defeated him. admire the man for his courage, but cannot admire his recklessness." Mr. Depew made this reference to his former remarks about Cleveland in showing up Cleveland's cowardice in attempting to

dodge the Democratic national platform. THE Decatur Review publishes this morning what purports to be a list of names of persons of more or less notoristy who have become Democrats. Among them we notice Judge Cooley, who has authorized his son to say there is no undation for the story. There is also Judge Greeham whose son within a week wrote Judge Calkins, of Washington hat there was no truth in the statement that his father had determined to support Cleveland. There appears also the name of Benjamin H. Here's What the Plasterers Think of ROCK PLASTER.

WE THE UNDERSIGNED, contracting plasterers, after much experience and observation, take pleasure in testifying to the practical character of ROCK PLASTER, and while it will remove a not inconsiderable amount of business, namely that of patching, we advocate its use, as it enables us to do work and guarantee the results, and enables us to carry on our trade at all seasons of the year, and modernizes that part of building enterprise which has undergone practically no improvement in the last two thousand years, placing the business of the plasterer on the same footing as that occupied by the other trades through the advent of machinery and improved methods.

Boston, Nov. 1.—Mrs. Annie E. Brownlee, an aged lady residing with her daughter at 60 Dans street, Cambridge, was found dead in her house, with her head pounded almost be-yond the possibility of recogni-tion. Mrs. Mary B. Mareau, the daughter, is under arrest, charged with the murder, which she admits having committed. Mrs. Marean told the police that she did not know why she had killed her mother and she is supposed to have been temporarily insane when she committed the deed. The weapon used was a heavy iron furnace-shaker. Mr. Marean says that early this morning she and her mother were chatting pleasantly when the old lady kissed her and told her she was a very dutiful daughter. The murderess then said: "As mother started to go upstairs I walked up behind her cand struck her on the head with a wrench."

seem violent, and her mother had no trouble in controling her. The medical examiner of the district, as well as an expert on insanity, were notified of the murder and an examina-tion of Mrs. Marean's mental condition

The Cheago directors, a few months ago, accepted a \$2,509,000 appropriation with the closing clause attached, and last week the national committee voted that the exposition should be locked on Sunday. In neither case, however, can it be said that the action taken was final or that it fairly represented the sentiment of either board. Of the forty-five men on the board it is believed forty-three are strongly in favor of seven days. To what extent the local board will figure in the campaign against Sunday closing has not been decided It is likely however, that an address will be issued and given the widest possible circulation. PITTEBUROH, Pa., Nov. 1.—Water is becoming a scarce article on account of the recent dry weather. All over westthe recent dry weather. All over western Pennsylvania much inconvenience
is being occasioned by the drying up of
the sources of supply, and the precious

awaited, therefore, with anxiety.

the effects of the drouth are particularly felt. Both the railroad and a number of towns between these points are experiencing the unpleasant sensation of having to hustle for their water tion of having to hustle for their water supply. At two points on the Pitts-burgh division it is found necessary to bring water from miles away by train. At Gallitzin, the highest point in the Alleghany mountains, water is also at a premium, the supply being brought by rail from Portage, ten miles dis-tant.

The city reservoir in Altoona is proving entirely inadequate to furnish the city. In fact, but a few inches of water is in it and the reservoir of the Pennsylvania railroad is called upon The Same story is told in other towns. In Greensburg the local water company is unable to furnish a full supply to its patrons and many of them have been compeled to fall back upon their wells. On the southwest branch of the Penn-On the southwest branch of the Pennsylvania rullroad the people also feel the shortage, and Scottbale and other towns are short in their supply. In the mountains it is stated that at several places the scene of water being sold from wagons is not an unusual one. It has been some years since the scarcity of water was as prevalent as it is now, and unless rainy weather soon makes its appearance suffering soon makes its appearance suffering may be occasioned.

St. Louis Packers Are Blow : Making Purchases. ST Louis, Oct 31.—The local winter porkpacking season, which usually be gins November 1, will be delayed this gins November 1, will be delayed this year until likely after the first of the year or thereabouts. The cause is the continued high price of hogs. The packers contend that at present values it would be a suicidal policy to attempt winter operations, and therefore the packing business will not be increased for the present. As a general thing prices for winter packing hogs range under or little over ing hogs range under or little over \$5; but this season has proven an ex-ception, and values to-day and in fact for six weeks have been all of \$1.50 to \$1 70 higher than prevailed at the same time a year ago. However, there is an active demand here for all the hogs arriving The winter packing season uses 140,000 heads of hogs and extends

Other people were not. The registration in many of the prepinets in this city discloses the fact that there are not enough booths to supply one for each 100 voters. The law provides that "the number of booths shall not be less than one for every 100 voters who voted at the last preceding election in the district." This is mandatory and sufficient booths must be secared before election day. The people must be given every opportunity to vote.

I say to all you Demograts, in the lanof the immortal Nelson, that England expects every Democrat to do his duty on election day by casting his vote for Grover Oleveland.

This is "bountiful language," coming from the lips of an American catizen, in which Americans are expected to vote from patriotic motives. Thousands of Democrats will not take Mr. Cerson's advice, but on the contrary will vote for Barrison and Reid and in the interest of our own industries and laboring men instead of England. When it comes to advising American voters to vote in the interest of England, as Mr. Carson has lone, it verges very class upon treason.

CHAUNDEY M. DEPEW has becom seartily tired of the numannerly way in which the Democratic leaders have used as campaign matter a pleasant reference he made to Oleveland at a non-political cotal gathering a year or two ago, and last Saturday night referred to it as folows: "The Grover Cleveland of to-day unother man. I did make some such spauch, to which a bechive is not a cirumstance to the honey there was in it. But it was a composite speech, which did not represent anyone in particular, but which might be claimed by anyone who had an ummensely high opinion of himself. Mr. Oleveland is a courage man. Ho is the Cleveland who had the

courage to send the famous message Congress which later defeated him. admire the man for his courage, but ! oannot admire his recklessness." Mr Depew made this reference to his forme. remarks about Cleveland in showing up Cleveland's cowardice in attempting to dodge the Democratic national platform

THE Decatur Review publishes the morning what purports to be a list of names of persons of more or less notorasty who have become Democrots. Among them we notice Judge Cooley, who has uthorized his son to say there is no Judge Gresham whose son within a week wrote Judge Calkins, of Washington, that there was no truth in the statement that his father had determined to support Cleveland. There appears also the name of Benjamin H. Bristow, who has denied the Democratic falsehood, that he will support Cleveland, over his own signature, and in making the denial states that the Democratic platform is revolutional to the Democratic platform in the Subscription Books and Diagrams are now of the Decenter to the County of oundation for the story. The Chicago papers, last week, all gave, in the local columns, rn account which McDonald was present and took part, and also made contribution to the logal Democratic campaign fund. As to Sheriff Perl we are not advised, but ere able to say that as Sheriff of this county Peter Perl controls more Democratic votes under one roof than any man in the Review's list controls of Republic votes in the entire country. I am safe in saying that the attack of MacVeagh upon Egan will result in a accession to the Republican vote of from 20,000 to 30,000 Irish Americans in

Here's What the Plasterers Think of -ROCK PLASTER.

WE THE UNDERSIGNED, contracting plasterers, after much experience and observation, take pleasure in testifying to the practical character of ROOK PLASTER, and while it will remove a not inconsiderable amount of business, namely that of patching, we advocate its use, as it enables us to do work and guarantee the results, and enables us to carry on our trade at all seasons of the year, and modernizes that part of building enterprise which has undergone practically no improvement in the last two thousand years, placing the business of the plasterer on the same footing as that occu-pied by the other trades through the advent of machinery and improved methods.

Haverly's Mastodon Minstrels. In the famous company of minetrel which appear at the Grand Opera House on Friday, Nov. 4 are to be found the names of such old-time Western favor ites as Billy Rice, E. M. Hall, Fred Ban dell, Chas. Sally, Bogert and O'Brien Deimore and Wilson, E. M. Kayne and many others who have appeared in this city with Col. Haverly's Mestodon Mir. strels on former visits. In conjunction with these old favorites are more than

two score additional, all equal in point of merit in several lines. Every man is worthy a column notice to say nothing of the manager, who has friends to-day, in and out of the show business, than any public benefactor in the land since the days of P. T Barnum. Indeed, what was to the circas world, Haverly is in the world of minstrelsy.

The desire for one of these mementoes of the Exposition seems to be almost as universal as is the interest in the Exposition itself, and orders for them have been sent in from all parts of the United States and also from foreign countries. Oldest man in Logan Dead.
Death claimed the oldest man in Logan county at hie home in Littolin on Sunday morning. He was John Reed, born in York county, Pa., July 10, 1796, the sum of a Revelutionary captann. Mr. Reed was a resident of this section of Idinois since November, 1827. He leaves a widow 85 years of age, his second wife. He was

and ordered each from 59 to 20,000 of the coins.

Notwithstanding these conditions have been widely published, still a vest number of inquities by letter has been received at Exposition headquarters asking how the coins may be obtained. The best way is to get them through local backs, all of which are no doubt willing to accommodate in that way their patrons and the residents of the city or town in which they are doing business. If, however, for any reason it is desired to obtain them otherwise, the proper methed is to form a club of subscribers for fifty coins, or some multiple of fifty, and select some one member of the club to send on the order and money and to distribute the coins when received. Orders should be addressed to A. F. Seeberger, Transurer World's Columbian Exposition, Obicago.

It is probable that the coins will not be ready for distribution until some time in December. But the orders are being sent in rapidly, and will be filled in the order of being received. Therefore it is important that all who desire coins should put in their orders as soon as

nould put in their orders as soon ossible.
